Al-Ashraf Primary School Key Stage 1 Tests 2009-13

The tables below show the percentage of eligible children enrolled at Al-Ashraf Primary School, achieving their KS1 (Year 2) results at each level over the past few years

The trend shows school continues to produce satisfying/good results at Level 2 & above. The hard work by pupils and teachers alike is a reflection of how serious Al-Ashraf Primary School takes each child's education, however there is still more to do.

The Senior Leadership Team, working with guidance from the School Governing Body is striving to ensure we build on the results of the past few years, continue to identify students who need more support, driving forward our brighter students, inspiring all our students achieve the best they can.

The school has already appointed a teacher team leader & TA coordinator to ensure best practice is shared throughout the school making use of the best teaching techniques and ensuring teachers receive continuous professional development. We are seeking to improve our pupil tracking system, to provide trend analysis and level prediction.

We rely on parent support so please do continue to encourage you child at home and the school in whatever capacity you can.

Kind Regards

Mufti Abdullah Patel
Head Teacher
Al-Ashraf Primary School
