

# *THE SIGNIFICANT SAT'S RESULTS OF AL-ASHRAF PRIMARY SCHOOL !!!*

5.2.14

**On 25<sup>th</sup> November 2014 the yr6 received their superlative S.A.T'S results. Al-Ashraf primary school have tried their best to help the yr6 attain this magnificent S.A.T'S results. From all the local schools, Al Ashraf came top with 88 percentages. This really was a great achievement for Al Ashraf as it was their first S.A.T'S .The yr6 students really were indebted for their teacher, Miss Bhaimia, for all her support and guidance. They also appreciated the help of the TA'S.**

Miss Bhaimia the teacher of yr6 has stated "I can't believe what my virtuous yr6s accomplished. I encouraged them to work their hardest. I pushed them on and on. In the end I felt I had done what was best for them all. All their work was paid off in the end. I'm really pleased and proud for them."

We also interviewed the head teacher, Mufti Abdullah, who claimed "Success is like a triangle the most important part of it is the students. One corner is the teacher the other corner is the parents and the last corner is tuition. There is no secret to the outstanding results but the only secret is hard work and a understanding to what's been taught and you have to be prepared for the questions. Before getting carried away you should thank Allah for helping us. We also have to be focused and responsible. When I heard about the fantastic results I felt ecstatic, overjoyed and also very happy with the students, parents and teachers."

Khadija Jadwat apa the deputy head has reported "When I saw the results I felt really delighted and overwhelmed for the students of yr6 because of their hard work. I also felt overjoyed. The results were higher than we expected .when students work hard they are representing the school. We have to continue in the same direction as when the school started. If we earn success in this direction, then we want to carry on in the same direction to

earn more success. We live in a real world it is not possible to always come first but we have to try our very best."
